Canadian Cancer Society Introduction

Established in 1938, the Canadian Cancer Society is a national, community-based organization of volunteers whose mission is the eradication of cancer and the enhancement of the quality of life of people living with cancer.

2 out of 5 Canadians are expected to develop cancer in their lifetime. Fortunately, with top researchers' hard work, over 60% of people diagnosed with cancer will survive at least five years after their diagnosis. Your generous donations fund the best cancer research and make the Canadian Cancer Society the largest national charitable funder of cancer research in Canada.

More than half of all cancers are preventable. The Society and its researchers will persistently work towards the goals of cancer prevention and health promotion. Together, we can eradicate cancer and improve the quality of life of people living with cancer.

The Society is also committed to providing personal and practical support programs to cancer fighters and leading critical cancer prevention initiatives. Your sponsorship and donation will help increase the survival rate of cancers and bring hope to people living with cancer. Please join the fight against cancer.
